### ... leads to diverse metadata

- ~7.4million records
- 9 metadata schemas
- 27 crosswalks representing 1,300+ institutions' data

. . . which leads to challenges

We need to understand what the metadata is trying to tell us before we can transform, normalize, or enrich.

DPLA is more than a data harvester

The **better** your data is, the more **useful** it becomes, and the more it is **used**
